A Tragic Finish.

A watchman's neglect permitted a break in the great North sea dyke, which a child's finger could have stopped, to become a ruinous breach, devastating an entire province of Holland. In like manner Kenneth Melrose of Vancouver, Me., permitted a little cold to go unattended until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to the idea of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure at the Red Cross Pharmacy, 50c and \$1.00. Trial bottle free.

BRYAN ON SOCIALISM.

Doesn't Think It Will Amount to Much Here.

London, July 3.—William J. Bryan gave a talk to the reporters at his room in the Hotel Cecil yesterday. He was asked to tell what he thought about Socialism. He said:

"Socialism is differently defined in different countries. Much that passes for Socialism in Europe is political rather than economic. If Socialism means the ownership and operation by the government of all the means of production and distribution—which, as I understand it, is the real definition of Socialism—I do not believe it will make permanent progress in countries that have free government. It may progress more in countries where the government is undemocratic, but under a free government the tendency is to be more conservative than in countries where the people's activity is restrained.

"In America Socialism has grown to some extent, but it is not likely to become a controlling influence, although it is having a certain amount of influence in the way of education and of pointing out abuses that have grown up under individualism, and thus it has stimulated a search for remedies consistent with the maintenance of competition.

"If by Socialism's continued Mr. Bryan, 'you mean municipal ownership, I think there is no doubt about its triumph. But municipal ownership is not necessarily Socialistic. It is advocated not merely by those who want to destroy competition, but by those who believe in competition where competition is possible.

"I believe the government should control monopoly. It is necessary that the government should control the railroads. So far as America is concerned, my view is that the control of state railways should be vested in the state governments and that of the trunk lines in the federal government."

SKIN TORTURES

Thousands of wretched people are miserable—driven almost mad by the terrible itching and burning sensation of Eczema and other skin diseases; many imagine they are suffering from bad blood, when as a matter of fact the blood has nothing to do with it. These awful tortures are caused by little germs that attack the skin externally, which can be rooted out in a hurry, leaving the skin clear, soft and healthy. Such misery now cleared away as surely as the sun shines above. Not merely attempted, not a matter of improvement merely, not a temporary relief—but a clearing of it all away absolutely and permanently.

THE D. D. D. PRESCRIPTION

A specific formula, put up in sealed bottles with authentic label, has proven to be the only certain cure for these diseases. Its record of cures is astonishing, amazing, almost miraculous. It is a liquid, used externally, not internally.

Cleansed within one month.

For a number of years my husband has been suffering with a terrible case of eczema. He had consulted with the best skin specialists in the city, but they could not even touch the itching. I was told by a friend of the D. D. D. treatment and began using it at once; the first few applications eased the itching, and in a month's time his flesh was as clear as could be.

Yours truly, MRS. S. J. HEATH, of Pine St.

Rutland, Vt., Oct. 17, 1903.

WE PROVE IT

To convince you we have arranged with the D. D. D. Co., so that any sufferer from any skin disease can get direct from the D. D. D. Co.'s laboratory a large free sample bottle of D. D. D. prescription, together with 32-page new pamphlet on skin diseases and free advice on your particular case from the world's greatest skin specialists.
